# Broads Authority

## Consolidated Budget 2009/10 (Revised) and Budget 2010/11

Report by Chief Executive and Treasurer and Financial Adviser

### 1. Introduction

1.1 The Broads Authority's general funding is determined by Government through the National Park Grant paid to it by the Department for the Environment, Food and Rural Affairs (Defra). The Authority has been awarded a three year grant settlement for the period 2008/09 to 2010/11, which is made up as follows:

	2008/09 £	2009/10 £	2010/11 £
National Park Core Grant	3,604,337	3,722,706	3,841,581
National Park Additional Grant	500,000	400,000	400,000
Sustainable Development Fund	200,000	200,000	200,000
Total Net Expenditure	4,304,337	4,322,706	4,441,581

1.2 In his letter confirming the grant the Minister stated: "*For the Broads, implementation of the Sediment Management Strategy will bring many benefits and so for the restoration of the Broads ecosystems I will again provide £500,000 in year 1, and £400,000 in each of years 2 and 3*".

1.3 The Authority's navigation funding is provided by toll payers, who pay an annual toll for the use of their vessels on the Broads waterways.

### 2. Implications of Broads Authority Act 2009

2.1 One of the effects of the Broads Authority Act 2009 is to remove the requirement to maintain separate general and navigation revenue accounts, and to replace it with a requirement to prepare a report after the end of each financial year describing the navigation income received by the Authority and the navigation expenditure incurred during the year.

2.2 It is still therefore necessary to record and monitor navigation income and expenditure, both to meet this requirement and, more importantly, to demonstrate to toll payers that their income is being spent efficiently and effectively for the proper maintenance of the Broads navigation.

2.3 The figures included in this budget have been set out in the format agreed with the British Marine Federation and Royal Yachting Association in January 2007 to indicate what income will be treated as wholly or partly navigation and how expenditure will be apportioned.

### 3. Summary of Income and Expenditure 2009/10 – 2010/11

3.1 A summary of the budgeted income and expenditure for 2009/10 and 2010/11 is set out in the table below.

	2009/10 Original Budget with Carried Forward Expenditure £	2009/10 Revised Budget £	2010/11 Proposed Budget £
General Income	4,372,706	4,332,706	4,456,581
General Expenditure	4,828,651	4,738,712	4,554,815
(Surplus)/Deficit	455,945	406,006	98,234
Navigation Income	2,289,600	2,372,600	2,513,900
Navigation Expenditure	2,351,201	2,390,510	2,499,139
(Surplus)/Deficit	61,601	17,910	(14,761)

#### 4. General Income and Expenditure

4.1 General income has been reduced by £40,000 in 2009/10 as a result of the anticipated reduction in income from investments, and expenditure by approximately £90,000. This will result in a deficit budget of £406,006, and reduce general reserves to £559,516 as at 31 March 2010.

4.2 For 2010/11 income has been increased to £4,456,581, reflecting the 2.75% increase in National Park Grant awarded in November 2007, whilst general expenditure has been reduced to £4,554,815. This will result in a deficit budget of £98,234, further reducing reserves to £461,282 as at 31 March 2011.

4.3 For the purposes of this budget an assumption has been made that salary costs will increase by 2.0% in 2010/11 and other costs by 2.5%.

#### 5. Navigation Income and Expenditure

5.1 In 2009/10 navigation income has been increased by £83,000 from the original budget, despite a reduction of over £20,000 in income from investments. Net expenditure has increased by £39,309, resulting in a deficit budget of £17,910 and reducing navigation reserves to £497,615 as at 31 March 2010.

5.2 For 2010/11 income has been increased to £2,513,900, based on a toll increase of 6.0% as agreed by the Broads Authority in November 2009. Net expenditure has been reduced to £2,499,139, resulting in a small surplus of £14,761 and increasing reserves to £512,376 as at 31 March 2011.

#### 6. Additional National Park Grant

6.1 The Additional National Park Grant of £1.3 million over three financial years is being spent in accordance with the Action Plan agreed by the Broads Authority in March 2008.

6.2 50% of the grant - £250,000 in 2008/09 and £200,000 in each of 2009/10 and 2010/11 – is being used to increase the dredging of rivers and broads in line with the Sediment Management Strategy, for water improvements within the navigation area.

6.3 The remaining 50% has been allocated to the following budget heads (although there has been some slippage which has caused some of these figures to be adjusted):

	2008/09 £	2009/10 £	2010/11 £
<b>Implementation of Sediment Management Strategy</b>			
Increased dredging of rivers and broads	250,000	200,000	200,000
Mud pumping isolated broads	135,000	130,000	95,000
GIS support	15,000		
<b>Implementation of Lake Restoration Strategy</b>			
Bio-manipulation and species controls	55,000	45,000	80,000
<b>Water Framework Directive/Wetland Connectivity</b>			
Developing adaptation and resilience to climate change	45,000	25,000	25,000
<b>Total</b>	<b>500,000</b>	<b>400,000</b>	<b>400,000</b>

## 7. Interreg Two Seas Project

7.1 The Authority has recently been successful in a bid to the EU Two Seas Programme, winning a contribution of €500,000 to be spent on sustainable tourism projects up to the end of 2012.

7.2 The financial arrangements are complex – for example allowing the Authority to claim retrospective grant aid for projects undertaken since January 2008, to contribute towards future match funding – and the full details had not been finalised at the time this budget was drawn up. For this reason therefore the budget does not incorporate the financial implications of the project, which will need to be added.

## 8. Efficiency Savings

8.1 Informal guidance from Defra to the Broads Authority and national park authorities is that they should “take a fairly aggressive approach to identifying efficiencies and better value for money”. The Authority is adopting such an approach and has made or is seeking to achieve savings through the following and other means:

- phasing out essential car user status and reducing travelling costs through the use of pool cars;
- terminating the lease on the Oby Field Base;
- use of the in-house Projects Team to carry out mud pumping projects;
- advertising jobs only on the website;
- reducing the staff complement through freezing posts;
- reducing printing costs by cutting back on committee papers;
- reducing vehicle costs;
- reducing the number of internal audit days;
- reducing consultants fees; and
- increasing charges for events and taking a more commercial approach to visitor centre sales.

8.2 Furthermore no allowance has been made for inflation in respect of all project costs for 2010/11, to encourage budget holders to seek more efficient ways of working.

8.3 The Authority is also working with local authorities and other public sector bodies to identify potential efficiency savings and opportunities for joint working.

## **9. Summary**

9.1 Notwithstanding the difficult economic climate, the Authority has been fortunate that during 2009/10 its income from both visitor sales and boat tolls has increased. In addition core funding from Defra is protected for a further year, into 2010/11. However the outlook for 2011/12 and beyond is much more uncertain.

9.2 For navigation income and expenditure the figures in the budget build on the detailed work carried out by the Navigation Finance and Tolls Review Group, which produced a five year strategy for navigation income and expenditure which was adopted by the Authority in November 2009. The figures will contribute towards this strategy, which seeks to maintain navigation reserves at a minimum of 10% of net expenditure, and achieve a balanced budget by the end of 2012/13.

9.3 For general income and expenditure the medium term ambition is to continue to maintain reserves at a minimum of 5% of net expenditure, and achieve a balanced budget by the end of 2012/13.

9.4 In order to achieve these ambitions it will be necessary to shrink the workforce where opportunities permit, and continue to seek more efficient ways of working. The Authority has adopted a policy of 'robustly reviewing all posts which become vacant, and where possible freezing such posts and/or refining work practices'. This practice is now being implemented, since it is recognised that action taken now will greatly reduce the gap in the future. It does however provide the Authority with opportunities to embrace new ways of working and make more flexible use of its workforce.

9.5 It will also be necessary to prioritise expenditure and focus activities more carefully. In this regard the emerging Broads Plan will be important in helping to identify key areas of activity. The Authority has therefore agreed to establish a Resource Allocation Working Group during 2010. The remit of the Group is to examine all aspects of income and expenditure with a view to developing a three year financial strategy for the period 2011/12 to 2013/14, including how

resources should be allocated across the Authority's activities during this period, whilst having regard to:

- the report and findings of the Navigation Finance and Tolls Review Group;
- the present economic outlook and the likelihood of a reduced grant settlement in 2011/12; and
- the priorities arising out of the emerging Broads Plan.

John Packman  
Chief Executive

John Duvall  
Treasurer and Financial Adviser
