

# Double mooring

Double mooring is now allowed at Broads Authority 24 hour moorings where indicated by signs.

## Some things to consider when mooring alongside another boat:

- Only moor alongside a **boat at least as large** as yours.
- **Please gain agreement from those on board the other boat** before mooring alongside.
- **Approach carefully** against the tide or river flow and have crew ready with ropes.
- **Put on the short lines** to the other boat first and then tie up your boat to the shore as shown above.
- **Remember to take care when going ashore and to wear your life-jacket.**
- **Please respect other people** and be considerate when crossing from your boat to the shore.
- You may be able to **negotiate to moor on the inside** if the other boat is going to be leaving first and if both boats are of a similar size.

- Please ensure that gaps between moored boats are minimised so that the maximum number of boats can be moored alongside.
- **Running engines at moorings disturbs the tranquillity of the moorings.** Carbon monoxide from your **boat's** engine could be harmful. Be a good neighbour **and avoid** running your engine when double moored or in a crowded marina, particularly when the air is still. 'Please remember making smoke, fumes or noise can be an offence carrying a £1000 fine for the master of hirer of a vessel. Let's not spoil the Broads.'
