# **Strategic Direction** Report by Chief Executive

### **Summary:**

This report sets out the Broads Authority's activities in delivering progress against the Broads Plan 2011 through a series of Strategic Priorities which are designed to meet those objectives where the Authority has been identified as the lead partner. The report details the progress made towards the objectives, projects and key milestones for the Strategic Priorities for 2014/15.

**Recommendation:** That the Authority notes the performance on the different projects to meet the Strategic Priorities for 2014/15 in the schedule at Appendix 1.

#### 1 **Progress on Strategic Priorities for 2014/15**

- 1.1 The Authority uses a small set of Strategic Priorities with accompanying projects to monitor at each meeting the delivery of the Broads Plan. The Authority's Annual Strategic Priorities, along with the Business Plan, provide the link, the 'Golden Thread', between the objectives in the five-year management plan, the Broads Plan 2011, and the Directorate work programmes and targets for individual members of staff. As agreed in March 2011, the Authority's Strategic Priorities follow the three key themes in the Broads Plan together with an organisational priority, namely:
  - Planning for the Long-term future of the Broads in response to climate (a) change and sea-level rise;
  - Working in Partnership on the Sustainable Management of the Broads; (b)
  - (c) Encouraging the Sustainable Use of the Broads; and
  - The Governance and Organisational Development of the Authority. (d)
- 1.2 It is important to remember that the Broads Plan is a plan for the Broads, not just for the Broads Authority. A range of partners will take the lead or joint role in the delivery of specific actions in the Plan. The Strategic Priorities do not replicate all the activities being undertaken by the Authority, but concentrate on those matters which involve large levels of resource, have a very large impact on the Broads or are politically sensitive.
- 1.3 The Authority operates a traffic light system to determine progress against the objectives milestones and key projects as detailed in the table below:

<b>*</b>		Completed
	Green	Project on track and no causes for concern
	Yellow	Good progress being made but some challenges in delivery e.g. minor slippage or limitations of staff and financial resources
	Amber	Project timetable slipping, concerns about how it is developing and a plan in place to address them
	Red	Looks unlikely that the project will be delivered on time and significant worries about the way its is heading
	Black	Project won't be delivered on time and very major concerns about implications
<b>—</b>		Direction of travel – comparison with last meeting

- 1.4 The 2014/15 priorities, objectives, projects and key milestones, agreed by the Authority on 21 March 2014, are detailed in Appendix 1. The specific outcomes for each of these projects and key milestones were detailed in the report to the Broads Authority on 21 March 2014.
- 1.5 Eight objectives have already reached completion. The traffic lights for all remaining projects are currently green with the exception of:
  - a. Objective 1.1: Prepare revised climate adaptation plan for consultation with stakeholders by October 2014. The revision of Climate Change Adaptation Plan has identified a new approach. This has been approved by the Climate Change Adaptation Panel and detailed discussion to confirm the content is starting with key partners. The intention is to have the content supported by those partners by the end of the year with the document being approved for wider consultation by the Authority at this meeting. This should still allow a more detailed document to be sent to Defra in the Spring.
  - b. Objective 2.1: Develop a proposal and seek funding for the restoration of Hickling and its catchment by January 2015. Due to the decision on toll income increase for 2015, this has been slightly overtaken by events but the Authority is looking at developing a scheme with existing available funds. A report on the Lake Review will be brought to the Authority in May 2015 following a Member workshop in April 2015.
  - c. Objective 2.2: Hold research seminar on fen hydrology in Autumn 2014 and work with partners to agree a research programme by end of 2014. This programme of work has been delayed but seminar proposals are being developed.

- d. Objective 3.1: Produce report and action plan on the positive steps that can be taken to raise the profile of the Broads through clear area signage and promotion outside of Norfolk & Suffolk by December 2014. The delivery of a report and action plan has been postponed until March 2015 in order to incorporate any branding development decisions.
- e. Objective 3.3: Produce development strategies for the yacht stations and visitor hubs to create direction of travel and main milestones for the coming five years by autumn 2014. This activity has been delayed but work is in progress.
- 1.6 The completion of those 2013/14 Strategic Priority objectives, which have not been completed or carried forward to the Strategic Priorities for 2014/15, will be pursued with any key matters being reported to the Broads Authority.

# Strategic Priority Objectives, Projects and Key Milestones for 2014/15

# Priority 1 - Planning for the Long-term Future of the Broads in Response to Climate Change and Sea-level Rise

This priority continues to be identified by others, including the Broads Forum, as a high priority, and the Authority has embarked on a major public consultation exercise which should lead to a revised Adaptation Plan and a new Action Plan.

Ser	Objective	Lead Officer	Projects and Key Milestones	Action to Date	Status
1.1	Furthering community involvement to understand vulnerabilities and inform adaptation planning (Broads Plan Objective CC2)	Head of Strategy & Projects	Continue to take opportunities to discuss with differing interests in the Broads the climate impacts and choices for getting the best for the broads throughout 2014  Prepare revised climate adaptation plan for consultation with stakeholders by October 2014  Use consultation responses to guide revised climate adaptation plan to be adopted by Authority & partners by January 2015  Submit revised plan to Defra by March 2015	Draft Adaption Plan on this agenda.	

# **Priority 2 - Working in Partnership on the Sustainable Management of the Broads**

There are two main strands identified within this area:

- The Biodiversity Audit and the Biodiversity and Water Strategy completed in 2012 should provide the guide for future action and concentration should be given, working with partners, for a major project, or series of projects, to continue to protect and enhance biodiversity in the area.
- In conjunction with partners, the Catchment Plan for the Broads should be developed to seek long-term benefits to the whole area.
