

Notes

Flood Alerts are used to warn people of the possibility of flooding and encourage them to be alert, stay vigilant and make early preparations. It is issued earlier than a flood warning, to give customers advice notice of the possibility of flooding, but before we are fully confident that flooding in Flood Warning Areas is expected.

Flood Warnings warn people of expected flooding and encourage them to take action to protect themselves and their property.

Some areas may be covered by more than one flood warning area as they may be at risk of flooding from more than one watercourse.

Not all Flood Warning Areas may be visible at this scale.

A table, listing the Flood Alerts and Flood Warnings in Great Yarmouth borough, can be found in the 2017 SFRA. The Flood Warning Area code, shown in the map legend, is provided in the table, alongside a description of the Flood Warning Area name, the watercourse it is associated with and the geographical coverage of the Flood Warning Area.

Key Plan

Legend

- Administrative area**: Indicated by a dashed black line.
- Flood Warning Area Code 054FWCDV3A3**: Indicated by a pink/red shaded area.
- Flood Alert Area**: Indicated by a blue hatched area.

0 4.25 8.5 17 25.5 34 42.5 km
