

**Implementation of Internal Audit Recommendations: Summary of Progress**  
Report by Head of Finance

<b>Summary:</b>	This report updates members on progress in implementing Internal Audit recommendations arising out of audits carried out since 2014/15 and 2015/16.
-----------------	---

<b>Recommendation:</b>	That the report be noted.
------------------------	---------------------------

**1 Introduction**

- 1.1 It has been agreed that this Committee will receive a regular update of progress made in implementing Internal Audit report recommendations, focusing on outstanding recommendations and including timescales for completion of any outstanding work.
- 1.2 This report summarises the current position regarding recommendations arising out of internal audit reports which have been produced since 2014/15 and 2015/16. It sets out in the appendix details of:
  - recommendations not yet implemented;
  - recommendations not implemented at the time of the last meeting which have since been implemented: and
  - new recommendations since the last meeting.

**2 Summary of Progress**

- 2.1 In the previous report to this Committee in February, three medium and three low priority recommendations relating to End User Controls were identified as outstanding. Two of these continue to remain outstanding at the date the report was written but a verbal update will be provided during the meeting.

**3 Internal Audit Programme 2015/16**

- 3.1 The second audit from the 2015/16 programme is currently underway for Planning. It is expected that the draft report will be issued by 10 September and finalised by 26 September 2015. The recommendations from this audit will be reported to the next committee meeting in February 2016.

**3.2 Corporate Governance and Risk Management**

- 3.2.1 The regular annual audit of Corporate Governance and Risk Management was completed in June following fieldwork in April and May. The objective of

the audit was to review the systems and controls in place within the promotion of ethics and values, pursuit of strategic objectives, communication and coordination of activities and information within the organisation, along with risk management. This was to help confirm these are operating adequately, effectively and efficiently. The audit also assessed progress in respect of implemented and outstanding agreed audit recommendations. This resulted in a “good” audit opinion with three low priority recommendations and one operational effectiveness matter being raised. This is consistent with last year’s rating of “good”.

### 3.2.2 The audit identified areas for improvement relating to:

- linking the Strategic Risk register clearly to the Strategic Objectives and Annual Strategic priorities;
- mitigating actions and further necessary actions on the Strategic Risk Register be reviewed for all risks to ensure they are giving adequate assurance to reduce the residual risk scoring;
- the risk register is added as a standing agenda item for Financial Scrutiny and Audit Committee.

### 3.2.3 Good practice was noted relating to controls in place around:

#### Corporate Governance

- Key corporate governance documents are in place establishing the Authority's Ethical Standards and Corporate Governance structure, which have been approved by the Members;
- The Authority's Code of Conduct and Code of Corporate Governance are available to the public and other stakeholders;
- The Annual Governance Statement is prepared each year and issued in September, following approval by the Members;
- A formal process is in place regarding escalation of issues/complaints made relating to ethical behaviour and transparency by the Authority's Members, and two independent Members have been identified to investigate complaints should the need arise;
- Performance against the Authority's key strategic objectives as stipulated in the Broads Plan 2011–2016, is documented and monitored by the Members, the Management Team and the Management Forum (Heads of Service); and
- Clear Strategic Priorities have been identified following major public consultations and are reviewed annually. Performance of the Authority is assessed against each strategic priority, with progress available on the Authority's website.

#### Risk Management

- There is a mechanism in place that assists the risk identification process;

- A Strategic Risk Register is in place, which is updated twice a year by the risk owners and is reported annually at the Financial Scrutiny and Audit Committee; and
- A Risk Management Policy is in place, which clearly sets out the Authority's risk tolerance, as well as risk classification, deduced from the scoring method.

3.2.4 The recommendations remain outstanding but are still on target to be completed by the agreed dates.

3.3 Details of all new recommendations and the Authority's actions to date in response are set out in the appendix.

Background papers: None

Author: Emma Krelle

Date of report: 19 September 2015

Broads Plan Objectives: None

Appendices: APPENDIX 1 – Summary of Actions / Responses to Internal Audit Recommendations 2014/15 - 2015/16
