

# Progress update

## Nov 2018 to April 2019

# Broads Plan 2017

Partnership strategy for  
the Norfolk & Suffolk Broads

6-monthly newsletter highlighting action by the Broads Authority and its partners to implement the Broads Plan

**Aspiration 1** Improve water capture and efficient water use across the Broadland Rivers Catchment, and develop a longer-term integrated flood risk management strategy for the Broads and interrelated coastal frontage

**1.1** Promote and implement best practice water capture and water use measures at a community level, and support a whole farm water management approach across the Broadland Rivers Catchment

- ‘Local Plans: An Anglian Water Perspective’ published, setting out advice on local plan policy for water efficiency, including development measures that aim to be ‘water neutral’ in areas of serious water stress and building sustainability standards for commercial development.
- Water management, including multiple holding approach, to be explored in new ELMS test & trial proposals (see 2.3)

**1.2** Promote and implement catchment measures to manage water resources and respond to periods of water shortage and scarcity (incl. abstraction controls, water transfer and trading, infrastructure improvements)

- Environment Agency (EA) in talks with abstraction licence holders in Ant Broads and Marshes SSSI to help achieve hydrological improvements on site.
- Anglian Water (AW) ceasing use of its Ludham ground-water source to help protect and restore fen vegetation at Catfield; Ludham pipeline scheme will bring surplus water from Norwich water resource zone and will be completed by March 2021. AW also rolling out demand management plans to reduce used and lost water, including smart metering, leakage reduction and water efficiency measures.

**1.3** Maintain current coastal, tidal and fluvial flood risk management strategies relevant to the Broads, Gt Yarmouth and interrelated coastal frontage, and prepare a longer-term, integrated, strategic approach

- Broadland Futures Initiative (BFI) work programme progressing, supported by Environment Agency (EA). Consultation leaflet, e-survey and summer drop-in events being planned; EA and Broads Authority (BA) also planning briefing meetings with county and district authorities.
- BA signed Statement of Common Ground with Norfolk and Suffolk coastal authorities to set out agreed approach to coastal planning.

**1.4** Investigate, plan and promote schemes to hold back or divert flood water, moving from retrospective to proactive approaches

Potential improvement plan produced for Lion Wood Local Natural Reserve as part of Norwich Surface Water Flood Management Plan.

**Aspiration 2** Protect, conserve and enhance water quality and land and habitat condition to benefit priority species, recognising natural environmental change and retaining a thriving and sustainable agricultural industry

**2.1** Carry out lake restoration, maintenance and enhancement works, including bio-manipulation; use monitoring evidence to trial and implement further innovative lake restoration techniques

- CANAPE project (Hickling Broad): All 9 geotextile tubes in place to form outer wall for island restoration in Chara Bay. Dredging in Broad stopped on 21 March in line with water temperature threshold for algal bloom; *Prymnesium* levels low and monitoring ongoing. Drone video made of work to date: [www.youtube.com/watch?v=jl0ID74cMto](http://www.youtube.com/watch?v=jl0ID74cMto) and BBC Countryfile filmed on site in February. Project information and interpretation board installed by Norfolk Wildlife Trust (NWT) reserve.
- CANAPE and Hoveton LIFE project researchers working with PhD researchers and EA Fisheries Team on tracking bream.
- Temporary fish barrier removal in Trinity Broads to allow fish migration back into Rollesby Broad and manage densities in Ormesby Broad to help improve water quality.
- EA Water Environment Improvement Programme Allocation 2019-20 confirmed and EA working with partners to plan project delivery.
- NWT and BA gained BIFFA award for ‘Tipping the Balance’ biomanipulation project. RSPB, NWT and BA gained Water Environment Grant for wetland restoration in Ant Valley, to include hydrological feasibility and habitat creation work.

Photo: CANAPE island restoration work at Hickling Broad

**2.2** Promote and implement measures to reduce point and diffuse pollution into the floodplain and water courses, commensurate with EU/national water and habitat targets and with sustainable farming

- Water Sensitive Farming activity since Sept 2018 includes: 10 advisory farm visits; silt trap installation; tramline disruption trials on 40ha farmland; land use improvements

on 4ha farmland, supplier/food business event; engagement with more than 700 farmers through newsletter and attendance at Farm Business Updates and other farmer workshops.

- Anglian Water Business Plan 2020-25 will meet new or tighter phosphate discharge limits at Sisland, Swardeston, Cotton, Aylsham and Southrepps Water Recycling Centres. AW also planning first time sewerage schemes for 61 properties in Billockby, Clippesby, Ludham and Knapton.

**2.3** Maintain and enhance existing areas of priority fen, reed bed, grazing marsh and wet woodland through site management agreements/prescriptions and support services to site managers

- Environmental Land Management Scheme (ELMS): Outline objectives for Broads test & trial project submitted to Defra and working group scoping detail of work packages to offer to partners and consultants.
- Reed and sedge cutting areas being collated for paludiculture (wet agriculture) maps; creation of cold compost to reduce waste and create new products being investigated. (Also see biochar project – action 10.2)
- Water, Mills & Marshes: Broads Land Management Scheme launched and leaflets/farmer packs distributed; farmers showing interest in using rotary ditcher to create foot drains. Volunteer winter surveys completed.

**2.4** Define, implement and monitor management regimes for priority species and invasive non-native species

- Water, Mills & Marshes Landscape Partnership Scheme: Waveney Grazing Marsh Survey Summer ditch plant training course planned for beginners. Extra Wild Watch trail camera loan centres proposed for 2019/20, incl. BA information centres at How Hill and Hoveton. (Abrehart Ecology invertebrate survey – see 2.6)
- Natural England partnership developing conservation plan for bat species in Norfolk. Biocontrol of Himalayan balsam continuing; NNNSI checking for rust fungus, with potential to include more trial sites. Flagship RAPID LIFE project seeking to eradicate Japanese knotweed and Himalayan balsam from River Wensum. Year-end infestation of floating pennywort on River Waveney down 75% compared with 2017 and eradication effort ongoing. *Crassula helmsii* - team continuing to monitor presence of weevils, which eat and weaken the plant.
- BA installed 30 Schwegler bat boxes at Whitlingham Country Park for *Nathusius' pipistrelle*.

**2.5** Create 'bigger, better and more joined up' areas of priority habitat by identifying opportunities and developing site-specific plans for new habitat areas, connections, buffer zones and pollinator networks

- Contractors started work to create new wetland habitat on newly purchased land at Suffolk Wildlife Trust's Carlton Marshes Reserve (Share Marsh and Peto's Marsh). Work includes digging scrapes for wading birds and creating new areas of reedbed.  
<https://www.suffolkwildlifetrust.org/news/work-begins-create-1000-acres-wildness-gateway-broads-national-park>

**2.6** Improve partnership coordination and communication of Broads biodiversity monitoring and research efforts, linked to national biodiversity network

- BA led site visits for MSc students on natural capital and management trade-offs, and on catchment management.
- New academic research efforts: Bid for NERC ALERT Assessing Large Scale Ecological Responses to Environmental Change (13 academic partners); UCL PhD on historical microplastic build up; 2 UEA MScs on biotic and abiotic factors influencing distribution of British swallowtail butterfly, and environmental variables influencing presence of milk-parsley under future climate scenarios.

- Water, Mills & Marshes programmes:  
Upton Grazing Marshes Improvement (NWT): Ditch restoration and bank scalping carried out; grass-wrack pondweed turion buds being kept by specialist for overwintering, ready for translocation next year.  
Delve into Ditches: Abrehart Ecology identifying invertebrate groups from Waveney ditch survey including molluscs, flatworms, dragonflies and crustaceans. Shining ram's horn

snail (pictured) and *Oxyloma sarsii* in healthy state and improved compared to 1997 surveys. Other species surveyed identify 6310 specimens to date, showing a healthy system.

**Aspiration 3** Apply a catchment-scale approach to reduce sediment input and the sediment backlog, and sustainably reuse or dispose of dredged material

**3.1** Implement dredging regimes in accordance with defined waterways specifications, and seek resources/legislation to accelerate the removal of sediment in the Broads system

- To end Feb 2019, 36,350 m<sup>3</sup> of dredged sediment removed from prioritised sites (91% of 2018/19 programmed target). Full dredging reports at [www.broads-authority.gov.uk/broads-authority/committees/navigation-committee](http://www.broads-authority.gov.uk/broads-authority/committees/navigation-committee).
- Dredging underway on South Walsham Fleet Dyke; c.3000m<sup>3</sup> sediment removed to end Feb and material placed in setback area at Ant Mouth.
- CANAPE project: Dredging completed along approach to Catfield Dyke. More about CANAPE is available at [www.northsearegion.eu/canape/about/](http://www.northsearegion.eu/canape/about/)

**3.2** Implement plans and good practice guidance to reduce soil erosion into the waterways, manage areas lost or vulnerable to erosion, and dispose of dredged material in sustainable and beneficial ways

- Thelveton Estate in Waveney catchment trialled tramline disruption on c.40ha using Creyke Combi machinery with new low disturbance tines. Estate plans to trial Earthwake machinery in Spring. Strip-tillage trials indicating promising results in yield increase and reduced ploughing costs, and Estate acting as best practice demonstration farm.

**Aspiration 4** Maintain a safe, open navigation and reduce pressures on busy or vulnerable areas

**4.1** Maintain existing navigation water space and develop appropriate opportunities to expand or extend access for various types of craft

- Regular liaison meetings held between BA & Network Rail, with standard agenda looking at swing bridge operational issues, communication with signalmen, and Network Rail's capital investment programme.
- River Wensum: Norwich City Council and BA assessing feasibility of completing riverside walk 'missing link' between New Mills Yard and Carrow Bridge
- River Waveney: BA provided Beccles and Bungay Town Councils with hydrological survey data for Geldeston to Bungay, to help assess potential for use by non-powered craft.

**4.2** Carry out appropriate aquatic plant cutting and tree and scrub management programmes and seek resources to increase operational targets

- BA routine aquatic plant cutting in rivers underway, with timings and locations dependent on water plant growth. 5-year programme of prioritised areas is available at [www.broads-authority.gov.uk/looking-after/managing-land-and-water/riverside-tree-and-scrub-management](http://www.broads-authority.gov.uk/looking-after/managing-land-and-water/riverside-tree-and-scrub-management)
- BA riverside tree and scrub management plan being prepared for Autumn/Winter 2019/20. New hydraulic tree shears in use, powered by excavator on floating pontoon.

**4.3** Implement, promote and monitor measures to maintain and improve safety and security for the navigation and boats

- BA adopted new Boat Safety Standard (BSS) requirement for suitable carbon monoxide alarms in all classes of boats with accommodation; BSS guidance issued for boaters.
- New Hire Boat Code near completion, with national consultation planned for Summer 2019. BA will then amend its hire boat licence conditions in line with new code and extend licensing to include hire yachts, canoes, kayaks and paddleboards from April 2020.
- Annual Safety Audit presented to Navigation Committee in April. Safety Management System updates and output from recent stakeholder hazard review to be presented to Navigation Committee and BA in June. All reports available at <https://www.broads-authority.gov.uk/about-us/committees/navigation-committee>

Photos: Chet Boat remains (left) and replica (see action 5.5)

**Aspiration 5** Improve understanding, protection, conservation and enhancement of the Broads landscape character and distinctive built, cultural, archaeological and geological assets

**5.1** Implement measures to protect, conserve and enhance the distinctive landscape character and historic assets of the Broads

- Private property in Bungay removed from Buildings at Risk Register.

Photos: (left) Norwich City College students repairing Strumpshaw Engine House; (right) North Mill brickwork repairs

- Water, Mills & Marshes (WMM) 'Land of the Windmills': North Mill: Norwich City College students and tutors, guided by WMM Heritage Skills Training Supervisor, completing repair work to structure.
- Strumpshaw Steam Engine House chimney underpinned and repointed and new cowl produced. Works on engine house include replacing asbestos cement roof with tin, brickwork restoration, refurbished cast iron window frames, new doors, reglazing, internal painting and decorating, new lean-to shelter and interpretation.

**5.2** Produce, update & promote local landscape conservation action plans, appraisals and enhancement schemes

- Consultation processes underway for Horning and Ludham Conservation Area Appraisals and for Wroxham Neighbourhood Plan.

**5.3** Develop measures to investigate, record and protect local built and cultural features, archaeology and potential hidden heritage (incl. waterlogged assets, waterways history, settlement patterns, WWII remains)

- Broads Local Plan workshops held looking at policy guidance in relation to biodiversity, carbon sequestration, and paleo-environmental and archaeological significance.
- Water, Mills & Marshes (WMM) Burgh Castle almanac exhibition held at Time and Tide Museum in Gt Yarmouth.

**5.4** Implement and promote measures to conserve and enhance local geodiversity sites and assets across identified work areas in Norfolk Geodiversity Action Plan

- Research underway on candidate County Geodiversity Sites at Buckenham Wood Pit East and Strumpshaw Wood Pit.
- Water, Mills & Marshes (WMM): Preparations underway for 'Church Stones' day schools, including 4 field trips to 30 Broads' churches to evaluate features of geodiversity interest, and 4 short reports produced for these churches.

- Work underway for 'Palaeolandscapes of the Broads' day school in July. WMM project staff discussing ideas for public participation in landscape history research into evolution of drained marshland of former Great Estuary.

**5.5** Expand the longer-term resource of land management and heritage construction and maintenance skills training and qualifications

- Water, Mills & Marshes heritage skills training ongoing in 'Land of the Willmills' project (see 5.1).
- Full-size working replica of Chet boat under construction at International Boatbuilding Training College at Oulton Broad, using oak from Raveningham Estate.

**5.6** Build on measures to reduce the impacts on the Broads of visual intrusion and noise and light pollution, and pursue potential for dark sky place status

- OFGEM undergrounding wires programme completed at Potter Heigham and South Walsham Marshes and overhead lines to be removed in Summer. New scheme in development at Wroxham; Stage 1 application to be submitted to National Undergrounding Wires Steering Group in September.

**Aspiration 6** Provide opportunities for distinctive recreational experiences in harmony with the special qualities of the area

**6.1** Develop and implement schemes to upgrade and improve the network of access points and routes (where adverse effects can be prevented), linked to visitor facilities and including easier access for people with mobility and sensory needs

- Moorings maintenance: 110m metal piling replaced and new mooring posts installed at Hoveton Viaduct; 60m timber quay heading refurbished, raised aggregate footpath laid and new mooring posts installed at Acle Bridge; renovation work underway at Dutch Tea Gardens; mooring posts replaced at Whitlingham Country Park; capping repaired at Paddy's Lane and at St Benet's; timber quay heading replaced and safety ladder pad repaired at Belaugh.
- Planning permission granted to install new canoe pontoon downstream of New Mills Pumping Station in Norwich.
- Broads Engage stakeholder event on improving land and water access provision held in Nov 2018. BA and Norfolk County Council mapping project opportunities to be developed through emerging Broads Integrated Access Strategy Action Plan (including moorings provision) and new Norfolk Access Improvement Plan 2018-28.
- Detailed BA construction and maintenance updates are available at <https://www.broads-authority.gov.uk/about-us/committees/navigation-committee>

Photo by Tom Mackie, BA 30<sup>th</sup> anniversary event

**6.2** Implement measures to improve the network provision of riverside facilities, incl. refuse and recycling services, electric power points, water and pump out

- 2 new electric charging points installed at Neatishead Staithe 24-hour moorings. (Also see 6.1 moorings)
- Café and provisions store opened in refurbished kiosk at Acle Bridge site, operating in 2019 season.

**6.3** Maintain, develop and promote a coordinated and year-round programme of activities (taking measures to prevent any adverse environmental impacts)

- Water, Mills & Marshes: Mobile discovery centre on loan to WMM project team who are doing set up and designs for internal and external interpretation. First event planned for 18 May at Hoveton Great Broad 50th celebration, then moving to Burgh Castle; 15 other events planned including week's installation at Chapelfield, Norwich. Eastern Angles play 'The Tide Jetty', based at Breydon Water in the 19th C, on tour March-June, including Burgh Castle 22-25 May. <https://easternangles.co.uk/event/the-tide-jetty> Norwich University of Arts students delivering Angles Way interpretation project; first stage of user research completed and students produced concept and user designs; initial functionality tests underway. Heritage Interpretation Consultant carrying out site research in cultural and landscape heritage. Beccles Town Council keen to get interpretation audit of Beccles Marsh and Quay; Beccles Museum to assist Consultant and share museum archive. New interpretation to be launched at first festival celebration event at Beccles Quay.

Photo: 'The Tide Jetty' drama © Eastern Angles

- BA active at Norfolk Festival of Nature in April including guided walks and interactive stand at The Forum, Norwich.
- Broads events programme published in Broadcaster 2019 (110,000 copies distributed) and through Visit the Broads online at [www.visitthebroads.co.uk/things-to-do](http://www.visitthebroads.co.uk/things-to-do)

#### 6.4 Implement Broads Angling Strategy action plan through partnership working and securing of additional resources

- Broads Angling Services Group taken ownership of angling platforms on Rollesby Broad, and in discussion with Whitlingham Charitable Trust on potential to develop fishery at Whitlingham Country Park. River Wensum stakeholders being consulted on catchment management process as part of Broadland Catchment Partnership work.

**Aspiration 7** Strengthen and promote key messages and tourism offer in keeping with the area's status, special qualities, history and traditions

#### 7.1 Develop integrated, multimedia communications to boost local community and visitor awareness and appreciation of the special qualities of the Broads National Park

- BA participated in Discover National Parks fortnight over Easter, promoting Broads activities and events using branding materials including promotional film featuring seven clips from the Broads.
- 'Visit the Broads' launched website to support and promote Broads Restaurant Week in June.
- 'Still Waters' photographic exhibition held at The Forum, Norwich to celebrate 30 years of the Broads Authority and 70 years of National Park legislation. 85% of photos sold with proceeds to Love the Broads charity; special exhibition book also produced. Event generated significant media coverage with press features and radio interviews.
- CANAPE and Water, Mills & Marshes projects featured on BBC Countryfile programme in February.

Photo: Walking the giant geotextile tubes forming the new reedbed perimeter at Hickling Broad (c) BBC Countryfile

#### 7.2 Maintain and upgrade the range and provision of multi-media and 'point of need' visitor information and interpretation

- New 'Visit the Broads' A6 pocket guide produced and distributed through Broads Tourism members and BA yacht stations and TICs, and to selected Norfolk postcode areas.
- Applications for Broads National Park tourist information road signs submitted to County Councils, and relevant parishes being consulted on sign locations.
- Community Rail Partnership to install new station signs featuring Broads National Park logo in Summer 2019 at Somerleyton, Haddiscoe, Reedham, Cantley, Brundall, Brundall Gardens, Lingwood and Acle Stations (Wherry Line) and Salhouse (Bittern Line).

#### 7.3 Implement industry-based measures to strengthen the quality and distinctiveness of the Broads tourism offer, including careers and skills training

- English National Parks Experience Collection launched, working with local businesses to develop unique, bookable experiences and promote them within travel trade in Australia and Germany.
- 8 'Broads Experiences' developed, ranging from wherry trips and paddle boarding to landscape photography. Discover England agreed 6-month extension funding package to Sept 2019 and BA working with Norfolk County Council to sustain project for further 3 years. English National Parks awarded 'Outstanding contribution to Tourism' award by Visit Britain in recognition of project.

**Aspiration 8** Support development growth within and adjacent to the Broads, while avoiding adverse impacts on the area's special qualities

#### 8.1 Update and adopt Broads spatial planning policies and site specific allocations to support local business, housing need, community facilities and transport choices, and to ensure development occurs within environmental limits

- Broads Local Plan examination completed; Inspector's report concluded that, subject to modifications, the Plan is sound. Plan to be recommended for adoption to BA in May.
- Better Broadband rollout schemes for Norfolk and Suffolk ongoing, including new areas in Waveney district upgraded to superfast broadband connection.

#### 8.2 Develop comprehensive approach to enhancing sites that are strategically important for their heritage or green infrastructure value

- Whitlingham Country Park: Historic assets surveyed and comprehensive 3-year work plan prepared to open up and preserve the assets.
- Hoveton Riverside Park: Inspection report identified significant costs to meet lease requirements; partner consultation being planned on options to improve site and reduce long-term maintenance costs.

**Aspiration 9** Strengthen connections between a wide audience, particularly local communities and young people, and the Broads environment

**9.1** Widen the range of active and entry level/ taster initiatives that promote physical and mental health and wellbeing, based in the Broads natural environment

- Water, Mills and Marshes 'Try it out' activities planned at more than 20 events over Summer, including Science Festival and Great Yarmouth Maritime Festival.
- BA contributing to Suffolk's Most Active County Partnership action planning; 'Move Suffolk Week' to be held in May.

**9.2** Offer a flexible range of practical volunteering programmes, events and training, and establish a longer-term succession strategy

- New group of BA volunteers recruited in March for roles of Ranger Volunteer and Education & Events Volunteer; role of Volunteer Leader delayed until staff resources available to develop training course and provide supervision.
- BA having increased engagement with community groups who are carrying out regular vegetation management, and through partnership working with 'hard to reach' groups.

**9.3** Increase the scope for partnership fundraising and other income generation initiatives to support Broads-themed projects

- Broads Trust assessing their short-term strategy to increase fundraising and support projects to help 'Love the Broads' campaign; next phase to be launched at Trust's 10th anniversary celebratory event on 22 May. 75 businesses now involved in collecting donations for Love the Broads.
- National Parks Partnership identifying potential Parks biodiversity and climate change themed activity aimed at attracting major funding bodies.

**9.4** Improve the capacity of the Broads Environmental Education Network (BEEN) to develop and run educational programmes and events for local schoolchildren

- New BA Youth Ranger programme underway with Broadland High school students. Term-long immersive learning project on Broads and Rivers delivered at Coltishall Primary School and resources added to Broads Curriculum website. BA Education Officer delivering Broads Discovery Days in partnership with Country Trust and doing in school presentations.
- Broads Curriculum engagement module completed and being formatted for website. Contractor engaged to develop wherry educational material with wherry trusts.
- CANAPE: 6th form students engaged in peat citizen science project (see 10.2).
- Water, Mills & Marshes: BA education officer working with International Boatbuilding Training College to run Anglo-Saxon boat building trip for primary school students. Acle Academy students working with WMM team and Norwich University of the Arts creating Broads landscape art for book publication. Roadshows underway with 15 schools

introduced to the Broads before their Experience Days in the Summer term. Broads Album project started with students from East Norfolk 6th Form College. Camera traps and Broads Themed Book Boxes loaned to primary schools.

Photo: Anglo-Saxon boat building designs

**9.5** Develop and run motivational outreach activities and award schemes for young people, including those from disadvantaged backgrounds, focusing on life and work skills training and practical experience

- BA educational outreach activities delivered, including:
  - Work experience days for Parkside School students via Mencap pathways work programme;
  - 8-week Education/Events Internship for UEA student set up for June/July 2019;
  - Careers event presentations to high school students;
  - John Muir Discovery Awards to high school students;
  - Broads Youth Rangers project;
  - Regular in-school activity with non-mainstream pupils;
  - 7 work experience student placements with BA set up for Summer and Autumn 2019;
  - Vocational team building skills courses at Norwich City College for 16 to 25-year-old students facing barriers to work (<http://www.mintnorwich.co.uk/>);
  - Weekly presentations to guests at Holiday Property Bondholders at Barnham Broom.

**Aspiration 10** Build the awareness and adaptive capacity of local communities to the challenges of climate change and sea level rise

**10.1** Develop and promote tailored 'climate-smart' mitigation and adaptation measures, guidance and support to local communities

- New interactive presentation 'The Broads: Past, Present and Future – conversations and stories' trialled in April, looking at challenges for local communities in adapting to impacts of climate change.
- Broadland Futures Initiative local community engagement plans - see action 1.3

10.2 Commission and coordinate research to inform management approaches to decrease carbon emissions and increase carbon sequestration in the Broads

Photos: Creating biochar

- CANAPE work package 4 - Paludiculture: Biochar Retort (charcoal burner) purchased and early burn trials successful. Sales of charcoal product to start in June, including wholesale arrangement with Whitlingham Park campsite. Trials to produce biochar from reed planned and market research ongoing.
- Citizen Science launched in Broads on 12 February with peatland celebration event. Students from East Norfolk Sixth Form conducting peat coring investigations. Public events at How Hill, and Discovery Days with Hobart High School, planned for Summer.
- Norfolk Rural Strategy Steering Group hosted stakeholder conference in December 2018 to gather ideas for a Norfolk and Suffolk Local Environment Plan, including measures to improve carbon capture and the reduction of greenhouse gas emissions.

Photo: NUA landscape art (see 9.4)
