Consistent with National Policy:

(Select this option if you did not answer no)

**\* 8. Please give details of why you consider this part of the Plan is not legally compliant or sound. If you wish to support the legal compliance or soundness of the Plan please also use this box to set out your comments.**

Policy PUBDM39: Bank stabilisation refers to the piling of banks and sets out specifically at point 3. b) that:

*“Piling of banks will only be permitted where it takes account of criteria 1(a) to (i) and where piling / quay heading is part of the character of the area”.*

Given the nature of Essex & Suffolk Water’s capital projects and in particular pipeline schemes and associated infrastructure, piling may be required for the delivery of essential infrastructure on a regular basis. Our client cannot, therefore, be in a situation where piling is largely prohibited.

Further, Policy PUBDM39 point 3. d) sets out that:

*“Piling of banks will only be permitted where it takes account of criteria 1(a) to (i) and the piling works are required for:*

- i) Navigation purposes (including moorings, but see mooring policies that follow);*
- ii) Compliance with the Water Environment (Water Framework Directive) (England and Wales) Regulations 2017;*
- iii) The prevention of diffuse pollution to the water environment; or*
- iv) Flood defence”*

In addition to the circumstances identified at point 3. d) above, piling may also be required for the provision of essential infrastructure, yet it is not currently acknowledged in emerging policy.

**\* 9. Have you raised this issue during previous consultations on the Local Plan?**

Yes

No

If you have answered 'No' could you please explain why this has not been raised before:

Savills (UK) Ltd was not acting on behalf of our client, Essex & Suffolk Water, during the previous consultations on the Local Plan. To provide comments during the Regulation 19 consultation, it is not required to have commented on previous versions of the Local Plan. Comments during the Regulation 19 consultation are focused on issues of legal compliance and soundness.

**\* 10. Please set out what change(s) you consider necessary to make the Plan legally compliant or sound.** You will need to say why this change will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording for any policy or text and cover all the evidence and supporting information necessary to support/justify the representation. If you are not seeking changes then please write 'not seeking changes'.

It is proposed that the wording of Policy PUBDM39 is amended to read as follows:

*"Piling of banks will only be permitted where it takes account of criteria 1(a) to (i) and where piling / quay heading is part of the character of the area, unless where it is required for the provision of essential infrastructure".*

*"Piling of banks will only be permitted where it takes account of criteria 1(a) to (i) and the piling works are required for:*

- i) Navigation purposes (including moorings, but see mooring policies that follow);*
- ii) Compliance with the Water Environment (Water Framework Directive) (England and Wales) Regulations 2017;*
- iii) The prevention of diffuse pollution to the water environment; or*
- iv) Flood defence; or*
- v) The provision of essential infrastructure"*

**\* 11. If your representation is seeking a change, do you consider it necessary to participate in the public examination?** (Please note that the Planning Inspector will make the final decision on who will be invited to attend individual sessions at the public examination, although all members of the public may observe the proceedings)

Yes

~~No~~

~~I am not seeking changes~~

**\* 12. Would like to be notified of the following?**
