Hello,

I wish to object to the current ongoing fringe settlement.

The land in question which has been nominated for protection isn't applicable in regards to what the policy is trying to protect.

The majority of this area is fully developed and there is no formal justification for the site designation.

The remaining sections are designated as priority habitat.

This is all private land as the trees have been planted by the land owners.

The gardens and land are already restricted from residential development.

This area in question have always been used for customer cars, boat storage and general storage, these are crucial to the local economy and are important commercial businesses in the area.

I strongly object to this area being designated as settlement fringe.

Many thanks,

Kind regards,

Tracey
