

	Project	Description	Farming in Protected Landscapes Grant year 5	Overall Project Cost
1	Waveney Farm Cluster gypsum trials	This project will trial using gypsum to improve soil health, water quality and fertiliser use efficiency across farms in the Waveney catchment.	£2,233.76	£10,903.81
2	Summerhouse Farmyard	This project will help to provide a new, fully equipped, farmyard meeting room for educational and training purposes.	£4,866.79	£8,111.32
3	Equipment to aid the management of deer	This project involves the purchase of a thermal monocular to aid the locating and identification of deer in both day and low light conditions.	£3,151.20	£3,939.00
4	Reed cutting machinery to maintain reed beds	Purchase a BCS 622 Reaper binder to cut reed on a commercial rotation and maintain important reed bed habitats on hard to access sites.	£10,560.00	£13,200.00
5	Sedge cutting equipment	This project will involve the purchasing of 9 aluminium boards to help transport cut bundles over dykes and hard to reach sites.	£3,093.12	£3,866.40
6	Reed cutting machinery for commercial and restoration work	This project will purchase machinery to improve the safety and productivity of a reedcutting. This includes a reed cleaning attachment, a water pump with hose attachments, and cutting equipment.	£6,384.52	£7,980.65
7	Equipment to facilitate the cutting of reedbeds	The project will include the purchasing of a reed cleaning attachment for a BCS machine and a brushcutter.	£2,479.20	£3,099.00

<b>8</b>	Equipment to manage permissive path at Haddiscoe Island	Purchase of a Ariens Zenith 60R Mower to manage access tracks and permissive paths to allow better access for surveying and wildlife recording and improved public access.	£7,999.20	£9,999.00
<b>9</b>	Equipment to reintroduce historic and rare native plant species to Haddiscoe Island	This project aims to reintroduce priority fenland species to improve the diversity of the grazing land for direct and indirect biodiversity improvement in the area.	£6,639.14	£8,298.92
<b>10</b>	Quickfence Rerolling System for Habitat Preparation at Lound Farm	Quickfence system to reroll approximately 1,650m of old fencing before hedge planting.	£2,070.00	£3,450.00
<b>11</b>	Access improvement through bridge and boardwalk replacement at Wheatfen	Replacing 18 bridges and a small section of boardwalk, with a combined length of 72 meters. Each bridge crosses a large area of water, and are vital for allowing access to the site for visitors, education, research and conservation management.	£18,550.80	£23,188.50
<b>12</b>	Redecoration and enhancement of Runham Swim Mill	Redecoration and enhancement of Runham Swim Mill to preserve the site as a significant heritage asset. The redecorated mill will be a focal point for visitors and walkers who use the public footpath that runs past the mill or the circular walk.	£10,920.00	£13,650.00
<b>13</b>	Farmer collaboration in the Broads led by Norfolk FWAG	Purchasing of equipment to be used in collaborative projects across the Norfolk Broads, including the Northern Broads Cluster Group, and Norfolk Deer Strategy; benefitting farmers in the Broads	£10,357.43	£12,946.79
<b>14</b>	Paddock diversification and animal engagement area at Hirsty's	The diversification will create paddocked areas at 2 sites to allow the public to engage with the animals, as well as a mower to manage the dog walking routes around the paddocks and sites.	£11,113.16	£12,353.16
<b>15</b>	Battery brush cutter and pole saw set up	This project involves investing in new, electric equipment to be used for reed and sedge bed restoration and wetland management.	£3,470.00	£4,337.50

<b>16</b>	Upgrading How Hill Trust's Outdoor Public Toilets	Installation of a new modular toilet block with disabled access to support access of the How Hill site including How Hill nature reserve.	£30,210.28	£30,210.28
<b>17</b>	Equipment for RSPB Mid-Yare reserves	Topper for wet grassland management at RSPB Berney Marshes, Buckenham and Cantley Marshes and new duckboards for visitor experience improvements at RSPB Mid Yare reserves.	£13,515.50	£29,406.77
<b>18</b>	Improvements to heritage crafts blacksmiths workshop	This project involves creating a safe weatherproof area in the workshop, installing water and heating supply, and a compressed airline for blacksmith tools.	£18,248.10	£36,496.20
<b>19</b>	Establish a public view and education of modern agriculture at Worstead Estate	This project will achieve education of modern agricultural practices in both livestock and arable production. The farm will be able to host schools and groups to learn about the farm-to-fork journey.	£24,818.17	£33,836.40
<b>20</b>	Enhancing and expanding reedbed management in the Broads	Purchase a rotavator attachment which will fit onto the Truxor and allow enhanced reedbed management across NWT reserves.	£16,689.00	£33,378.00
<b>21</b>	Fridge for fish business at Hirsty's	The fish business requires expansion, and a new fridge will help to meet additional demand.	£707.93	£1,179.89
<b>22</b>	Hedge planting and fencing equipment at Calthorpe Farm	The project is to purchase a machine that rolls up spent fencing into tight rolls to aid removal.	£4,836.00	£8,060.00
<b>23</b>	Improvements to North End Irrigation system & underground mains to Boundary Farm, Ingham	The project will upgrade irrigation pump at North End farm, Ingham and install underground mains to Boundary farm, Ingham.	£24,073.36	£60,183.40
<b>24</b>	Supporting Wildlife and People at RSPB Broadland Reserves	This application is to purchase volunteer engagement infrastructure, machinery to maintain visitor trails, a storage container, and ecological monitoring equipment.	£20,822.21	£30,950.33

<b>25</b>	Hillfield Nursery Educational access	The project will form an education centre at the nursery, providing mainly primary school children with hands-on learning experiences.	£5,030.75	£5,030.75
