

	Project	Description	Overall Project Cost	Farming in Protected Landscapes Grant
1	Educational farm visits for disadvantaged children with The Country Trust	This project will provide inspiring, hands-on day visits to a Broads farm for 18 classes (c.468) children from disadvantaged communities in the Great Yarmouth and Norwich areas.	£13,678.16	£ 5,921.2
2	Trailer for hauling reed and sedge	This project will involve the purchase of a trailer which will haul reed and sedge, allowing a more rapid and efficient cutting operation, reducing emissions and minimising wildlife disturbance.	£3,300.00	£4,125.00
3	Training and equipment for a new reed cutter	This project will involve training courses for a new reed cutter which will provide him with the qualifications to carry out conservation management work across the Broads. Alongside this it will provide the machinery and PPE needed to carry out brush cutter and chainsaw work, which is important for those working in conservation management.	£5,033.96	£4,572.96
4	Establish a Regenerative Conservation strategy for Alderfen Marshes	This project will provide equipment for the management of the marshes, as well as soil testing for compost creation from marsh arisings and biochar.	£1,856.01	£1,484.80

<b>5</b>	Restoration and commercial cutting of reed and sedge beds in the Broads	This project involves the purchase of a sedge cutting machine to support a cutting business in the Broads	£4,632.00	£3,705.60
<b>6</b>	The Churchyard Challenge	This project will work with 14 Norfolk churches to increase understanding and engagement with nature in churchyards across the Broads	£54,729.40	£39,709.40
<b>7</b>	Machinery to facilitate the cutting of reed and restoration of reed beds in the Broads	This project involves the purchase of machinery to aid with the collection and transport of reed in the winter months	£9,780.00	£7,824.00
<b>8</b>	Accessibility & Strategic Improvement Plan for Fairhaven Water Gardens	This project will develop a strategic improvement plan for the charity to guide their work improving accessibility in the garden. It will also fund new signage in the Gardens	£6,360.80	£6,360.80
<b>9</b>	Spoil spreader for breeding wader habitat creation	This project will provide up to date machinery for creation of important habitat for breeding waders on grazing marsh across the Broads.	£35,000	£25,200

<b>10</b>	Breeding Wader habitat improvements	This project will create habitat for breeding waders on marshes in the Broads, installing water control structures and foot drains.	£18,437.73	£16,594.35
<b>11</b>	Restoration and commercial cutting of sedge beds in the Broads.	This project will provide machinery for cutting of sedge in the Broads.	£4,632.00	£3,705.60
<b>12</b>	Restoration and commercial cutting of reed beds in the Broads.	This project will provide machinery for cutting of reed in the broads.	£20,456.40	£16,365.12
<b>13</b>	Sedge cutting at Hickling and Catfield	This project will provide machinery to support a cutter in their operation to cut sedge in the Broads.	£5,999.00	£4,799.20
<b>14</b>	Sedge cutting machinery	This project will provide machinery to support reed and sedge cutting in the Broads.	£16,980.00	£13,584.00

<b>15</b>	Wildflower grazing and management	This project will enhance wildflower meadows through fencing and winter grazing, as well as introducing bird and bat boxes.	£9,892.01	£9,892.01
<b>16</b>	Enhancement of Caldecotte and Fritton Marshes for breeding waders	This project involves the creation of 3022m footdrains and a water control structure to provide a food source for foraging chicks.	£7,487.35	£7,337.56
<b>17</b>	Museum of the Broads	The Story of Peat will be a new exhibition in the Museum's Wroxham building. Visitors will discover the importance of peat in the formation of the Broads landscape, and through immersive and creative displays, understand the importance of peat wetlands now and how to preserve them in the future.	£22,374.48	£15,976.80
<b>18</b>	Reed and sedge cutter training	The training will provide conservation management skills to support a young reed cutter in the Broads.	£1,160.50	£1,160.50
<b>19</b>	Restoration and commercial cutting of reed and sedge beds in the Broads.	This project will provide machinery to facilitate the reed and sedge cutting business and to maintain and restore other reed beds for future growth.	£5,412.00	£4,329.60
