Navigation Income and Expenditure: 1 April to 31 October 2017 Actual and 2017/18 Forecast Outturn

Report by Chief Financial Officer

Summary:

This report provides the Committee with details of the actual navigation income and expenditure for the seven month period to 31 October 2017, and provides a forecast of the projected expenditure at the end of the financial year (31 March 2018).

1 Introduction

1.1 This report provides a summary of the Income and Expenditure for the Navigation Budget up until 31 October, any amendments to the Latest Available Budget (LAB), Forecast Outturn (predicted year end position) and the movements on the earmarked reserves.

2 Overview of Actual Income and Expenditure

Table 1 – Actual Navigation I&E by Directorate to 31 October 2017

| | Profiled Latest Available Budget | Actual Income and Expenditure | Actual Variance |
|--|--|-------------------------------------|-----------------|
| Income | (3,121,770) | (3,189,063) | + 67,293 |
| Operations | 1,347,754 | 1,440,309 | - 92,555 |
| Planning and | | | |
| Resources | 372,626 | 339,286 | + 33,340 |
| Chief Executive | 297,629 | 292,365 | + 5,264 |
| Projects, Corporate Items and Contributions from | | | |
| Earmarked Reserves | (90,527) | (61,056) | - 29,471 |
| Net (Surplus) / Deficit | (1,194,289) | (1,178,160) | - 16,129 |

- 2.1 Core navigation income is above the profiled budget at the end of month seven. The overall position as at 31 October 2017 is an adverse variance of £16,129 or 1.35% difference from the profiled LAB. This is principally due to:
 - An overall favourable variance of £67,405 within toll income:
 - Hire Craft Tolls £42,461 above the profiled budget.
 - Private Craft Tolls £27,679 above the profiled budget.
 - An overspend within Operations budgets relating to:
 - Equipment, Vehicles and Vessels is over profile by £15,826 due repair expenditure being ahead of profile.

- Water Management is under profile by £33,324 due to an outstanding invoice for the Hydrographic survey and contractor availability on the dredging plough contract.
- Practical Maintenance is over profile by £165,748 due to timing differences on the profile originally set. This is due to Acle Bridge being purchased.
- Premises is under profile by £28,101 due to timing differences around the Dockyard Wet Shed repairs.
- An underspend within Planning and Resources budgets relating to:
 - Visitor Centres and Yacht Stations is under profile by £15,071 due to higher than predicted income and salary savings.
- A favourable variance within Chief Executive budgets relating to:
 - Asset Management is under profile by £11,817 due to timing differences.
- An adverse variance within Reserves relating to the timing differences around the Dockyard Wet Shed repairs.
- 2.2 The charts at Appendix 1 provide a visual overview of actual income and expenditure compared with both the original budget and the LAB.

3 Latest Available Budget

3.1 The Authority's income and expenditure is monitored against the latest available budget (LAB) for 2017/18. The LAB is based on the original budget for the year, with adjustments for known and approved budget changes such as carry-forwards and budget virements. Full details of movements from the original budget are set out in Appendix 2.

Table 2 – Adjustments to Navigation LAB

| | Ref | £ |
|---|---------------------|-------|
| Original navigation budget 2017/18 (surplus) | Item 12 27/01/17 | (766) |
| Approved carry-forwards from 2016/17 | Item 11 19/05/17 | 8,995 |
| Virement from ASS to OMA to reflect actual admin support | CEO approved | (474) |
| Virement from STR to VEH to use apprenticeship grant to purchase apprentice vehicle | Director approved | 1,160 |
| LAB at 31 October 2017 | | 8,915 |

3.2 The LAB therefore provides for a navigation deficit of £8,915 in 2017/18 as at 31 October 2017.

4 Overview of Forecast Outturn 2017/18

4.1 Budget holders have been asked to comment on the expected expenditure at the end of the financial year in respect of all budget lines for which they are responsible. It must be emphasised that these forecast outturn figures should

be seen as estimates and it is anticipated that they will continue to be refined and clarified through the financial year.

- 4.2 As at the end of October 2017, the forecast outturn indicates:
 - The total forecast income is £3,244,461 or £64,961 more than the LAB.
 - Total expenditure is forecast to be £3,217,269.
 - The resulting surplus for the year is forecast to be £27,192.
- 4.3 The forecast outturn expenditure reflects the following changes from the LAB as shown in Table 3. The forecast surplus represents a favourable variance of £36,107 against the LAB.

Table 3 – Adjustments to Forecast Outturn

| | £ |
|---|----------|
| Forecast outturn deficit per LAB | 8,915 |
| | |
| Adjustments reported 19/10/17 | (24,887) |
| Increase to Private Craft Toll income | (5,000) |
| Increase to Interest Income | (2,500) |
| Decrease to Planning Management and Admin following | |
| vacancy | (3,720) |
| | |
| Forecast outturn surplus as at 31 October 2017 | (27,192) |

4.4 The main reason for the difference between the forecast outturn and the LAB is the increase in hire and private craft toll income and a number of other savings within a variety of budgets.

5 Reserves

Table 4 – Navigation Earmarked Reserves

| | Balance at 1 April 2017 | In-year movements | Current reserve balance |
|----------------|----------------------------|----------------------|-------------------------|
| | £ | £ | £ |
| Property | (305,051) | (31,000) | (336,051) |
| Plant, Vessels | | | |
| and Equipment | (199,010) | (22,713) | (221,723) |
| Premises | (85,753) | (13,909) | (99,663) |
| Total | (589,815) | (67,622) | (657,437) |

5.1 Items funded from the Property reserve at the end of October include the repairs to Irstead Billet. Items funded from the Plant, Vessel and Equipment reserve include the linkflotes and a replacement vehicle for the Construction and Maintenance team. The Premises reserve has funded the initial electric works at the Dockyard Wet Shed.

- 5.2 The Authority will shortly be required to set up an additional reserve to cash flow the CANAPE project. This will smooth out the timing differences between expenditure and reimbursement from the EU. This was previously outlined by the Director of Operations in December 2016. In order to do this it will require a temporary loan over the life of the project from the other earmarked reserves and will be repaid once the final claim has been received. As has been previously agreed the CANAPE project will be funded 50% National Park and 50% Navigation. It is estimated that £91,000 will be required with the Navigation share being funded from Plant, Vessels and Equipment and Premises. The impact on the earmarked reserves is outlined in the budget report under agenda item number 7.
- 5.3 In order to progress the works at Hickling the Authority is looking to purchase a concrete pump for £90,000. This will allow dredged materials to be set further back. Typically this type of equipment would have been hired at a cost of £750 per week for a period of three to four months a year. Under the CANAPE project it allows depreciation to be claimed against capital equipment. If such a purchase was made now the depreciation could be maximised over the life of the project. A concrete pump would be expected to have a useful life of 7 10 years and would therefore save money in the long run. In order to fund the purchase a 10% deposit of £9,000 would be financed from the Plant, Vessels an Equipment reserve with the remaining deposit funded from the hire savings. The remaining balance would be funded by hire purchase over 5 years using the existing hire budget.

6 Summary

6.1 The current forecast outturn position for the year suggests a surplus within the navigation budget which would result in a navigation reserve balance of approximately £353,000 at the end of 2017/18 (before any year-end adjustments). This would mean the Navigation Reserve would be above the recommended 10% at 11%. Year-end transfers of interest to the earmarked reserves will mean that it will fall to approximately 10.8%. This will be highly dependent on the actual level of interest received.
