

	Project	Description	Overall Project Cost	Farming in Protected Landscapes Grant yr 4
1	Educational farm visits for disadvantaged children with The Country Trust	This project will provide inspiring, hands-on day visits to a Broads farm for children from disadvantaged communities in the Great Yarmouth and Norwich areas.	£10,963.95	£10,963.95
2	Breeding Wader habitat improvements	This project will create habitat for breeding waders on marshes in the Broads, installing water control structures and foot drains.	£19,146.27	£12,860.78
3	Conservation cutting of reed and sedge beds in the Broads	This project will provide machinery for the cutting of reed and sedge at Wheatfen Nature Reserve.	£29,052.00	£23,241.60
4	Marsh restoration works at Geldeston	This project will enhance the water management of a marsh in Geldeston through the clearance of dykes and fencing for controlled grazing.	£4,832.39	£2,905.76
5	Access project at Filby Broad	This project will replace the boardwalk and dyke dipping platform at Filby Broad to make them safer to use for visitors.	£16,650.13	£13,320.10
6	Maintenance of fen	This project will help to maintain the fen habitat at a farm in the Broads through cutting of the sedge and reed and managing scrub growth.	£5,632.40	£5,632.40
7	Spoil spreader for breeding wader habitat creation	This project will provide machinery for the creation of important habitat for breeding waders on grazing marsh across the Broads.	£31,990.00	£19,194.00

8	Educational equipment to support school visits	This project will provide visual tools to support outreach events and school visits at Raveningham education barn.	£2,189.00	£2,189.00
9	Event and panel discussion	This project will support the facilitation of an event put on by the Royal Norfolk Agricultural Association regarding the future of farming in terms of climate change.	£2,203.00	£1,000.00
10	Deer management	This project will help to provide equipment to support deer management across the Broads to help conserve the natural landscape and habitat.	£1,252.86	£1,002.29
	People carrying trailer	This project will support the purchase of a people carrying trailer to facilitate school farm visits in Hickling.	£17,150.00	£17,150.00
	Deer management training	This project will help to develop deer management and processing skills of local deerstalkers and farmers.	£12,459.60	£9,774.60
11	Reedcutting equipment	This project will support the purchasing of reedcutting equipment to enable the applicant to move their machinery across a variety of sites.	£10,114.20	£6,068.52
12	Ecological monitoring equipment	This project will provide equipment to produce a baseline ecological dataset before changes are implemented to improve water quality and habitats at Langley Abbey.	£1,066.62	£853.30
13	Outdoor education officer	This project will support the funding of a lead role, as well as education materials and resources, to facilitate school visits to Fairhaven Water Gardens.	£22,022.90	£19,265.90
14	Deer monitoring and evidence review	This project will assess the impact of deer across protected wetland sites.	£56,564.00	£43,000.00

15	Multi-farm reservoir connection	This project will facilitate a reservoir connection and installation of a new water pump across three farms in the Worstead area.	£82,071.17	£32,828.47
16	Smart water modelling system	This project will involve installing instrumentation and monitoring equipment to be integrated with a software-based water management system.	£74,967.71	£59,967.71
17	Sedge cutting equipment	This project is for the purchase of a new sedge cutterhead to help with low disturbance cutting.	£2,160.00	£1,728.00
18	Deer larder	This project is to install a deer larder on the Raveningham Estate to facilitate the management of deer.	£59,544.00	£47,635.00
19	Reedcutting equipment	This project is for a new bespoke cutterhead for a reedcutting machine to enable cutting of older reedbeds.	£11,995.00	£9,596.00
20	Reedcutting equipment	This project is for a walking tractor and hay rake machine to enable the tying and bundling of cut reed.	£6,288.30	£5,030.64
21	Big Farmland Bird Count	This project is for Norfolk FWAG to conduct on-farm bird surveys and workshops to help farmers manage their land for the benefit of birds present.	£13,317.50	£10,647.50
