**Question submitted by Richard Holmes**

Last year I raised the issue of water plants and the impact it has with sailing at the Hickling Broad area, it seems little action has been taken by the Broads Authority apart from a partial refund of my Broads Licence toll payment after I was told there were no actions to be taken by the Broads Authority apart from monitoring.

I read this year that it has again been brought to the attention of the Broads Authority by the Hickling Sailing Club and local business, highlighting this issue and safety aspects.

I would like to know what the role and responsibility of the Broads Authority is in this matter and what the future plan is and if any previous obligations required by the Broads Authority have not been met.

***The Authority's response will be reported at the meeting.***
