Acle Toilet Block Landscaping Clarification Questions

The following is a summary of the questions raised and the responses provided.

This will be periodically updated until the deadline for the Authority to publicise responses on the **25/11/2026**

Question 1: Drawing 402 is not available within the files and is required for the planting specification. (5/11/26)

Response: We have requested the design and specification of the soft landscaping elements using native trees and shrubs as part of the tender, as per scope of works.

Drawing 402 is not part of the tender pack, but Drawing 104 (D2) gives a design intent for the soft landscaping as guidance.
