

Local Plan Legal Compliance Checklist (April 2013)

This checklist has been updated for PAS by SNR Denton. It supersedes the previous checklist and is based on **Town and Country Planning (Local Planning) (England) (Amendment) Regulations 2012**. It should be used with the Soundness Self Assessment Checklist (also updated January 2013).

Remember that the evidence you provide to support your plan should be relevant and proportionate. Please don't use this checklist as a reason to assemble more than is needed.

Glossary:

"Act" means the **Planning and Compulsory Purchase Act 2004 (as amended)**

"NPPF" means the **National Planning Policy Framework** published March 2012

"Regulations" means the **Town and Country Planning (Local Planning) (England) (Amendment) Regulations 2012**

LDS means **Local Development Scheme**

SCI means **Statement of Community Involvement**

DPD means **Development Plan Document**

Stage one: The early stages

Where the 'possible evidence' column refers to a document that will not be complete until a later stage (for example, the sustainability appraisal report), documents that will contribute to that report are relevant at the earlier stages. This way, the submitted report provides the evidence at submission, with an audit trail back to its source.

In terms of legal compliance, the main issues for the early stage are in relation to:

- planning for community engagement
- planning the sustainability appraisal (including consultation with the statutory environment consultation bodies)
- identifying significant cross boundary and inter-authority issues
- ensuring that the plan rests on a credible evidence base, including meeting the Act's requirement for keeping matters affecting the development of the area under review.

Regulation 17 notes that a statement setting out which bodies and people the council invited to make representations under Regulation 18 is one of the proposed submission documents. In this tool, the term 'consultation statement' is used to describe this statement.

Section 33A of the Act (introduced by the Localism Act 2011) introduces a duty to cooperate as a mechanism to ensure that local planning authorities and other bodies engage with each other on issues which are likely to have a significant effect on more than one planning area. This pervades every stage of the plan preparation. A plan may be found unsound if a council cannot show that it has taken reasonable steps to comply with the duty.

Stage two: Plan preparation - frontloading phase

Information assembled during this phase contributes to:

- showing that the procedures have been complied with
- demonstrating cooperation with statutory cooperation bodies
- developing alternatives and options and appraising them through sustainability appraisal and against evidence.

The council should record actions taken during this phase as they will be needed to show that the plan meets the legal requirements. They will also show that a realistic and reasonable approach has been taken to plan preparation.

Yes. See monitoring and implementation framework in publication Local Plan.

Stage three: Plan preparation - formulation phase

This stage has many legal matters, for process and content, to address. The council should be beginning to formulate the preferred strategy for the local plan or supplementary planning document with which the council chooses to address Regulation 18 requirements, using the information gathered and previous collaborative work with stakeholders.

Para 182 of the NPPF makes it clear that explicit consideration of alternatives is a key part of the plan making process.

You should evaluate the reasonable alternatives identified in 'stage two: frontloading phase – plan preparation' phase against the:

- completed body of information from evidence gathering
- results of sustainability appraisal
- findings from community participation
- findings from engagement with statutory cooperation bodies.

This may be written up as a preferred strategy report. The results of participation on the preferred strategy and an accompanying sustainability report will enable the council to gauge the community's response and receive additional evidence about the options. The council can then decide whether, and how, the preferred strategy and policies should be changed for publishing the finished DPD.

Alternatives developed from the evidence and engagement during the frontloading stage need to be appraised to decide on the preferred strategy. Participation will also need to be carried out on it.

These matters need to be considered, and dealt with, in good time, and not left until publication. Supporting documents will assist in providing evidence that decisions on alternatives and strategy are soundly based. These documents will, in due course, become part of the proposed submission documents in stage four.

The council should tell all parties that this is the main participation opportunity on the emerging plan.. The publication stage is a formal opportunity for anyone to comment on an aspect of the DPD's soundness, and to propose a change to the plan accordingly. The more effectively this message is put across, the lower the chance of late changes being brought forward following publication.

Stage three: Plan preparation – writing the plan

Stage four: Publication

Under Regulation 20, the period for formal representations takes place **before** the DPD is submitted for examination in accordance with a timetable set out in the statement of the representations procedure which is made available at the council's office and published on its website.

When moving towards publication stage, the council should consider the results of participation on the preferred strategy and sustainability appraisal report and decide whether to make any change to the preferred strategy. In the event that changes are required, the council will need to choose either to:

- do so and progress directly to publication
- OR
- produce and consult on a revised preferred strategy.

The latter may be appropriate where the changes to the DPD bring in changed policy or proposals not previously covered in community participation and the sustainability appraisal. It avoids having to treat publication as if it were a consultation, which it is not. It also provides insurance in relation to compliance with the Strategic Environmental Assessment Regulations. Legally, during any participation on a revised preferred strategy, you should:

- comply with the requirements of the SCI
- update the sustainability appraisal report.

The council should then produce the DPD in the form in which it will be published. This includes removing material dealing with the evaluation of alternatives and the finalisation of the text. The council should be happy to adopt the DPD in this form, and satisfied that it is sound and fit for examination.

The six weeks publication period is the opportunity for those dissatisfied (or satisfied) with the DPD to make formal representations to the inspector about its soundness. Only people proposing a change to the plan can expect to be heard at examination.

The possibility of change under certain circumstances (which should be exceptional) is allowed for in the new procedures, and is described in 'stage five: submission'.

Stage five: Submission

At the submission stage, the council should receive and collate any representations made at publication stage. You don't have to report these representations to councillors but there may be requirements deriving from other legislation, Standing Orders or council procedures that must be considered. Or you might just think it is a good idea to report on it anyway.

If they are reported it should be on the facts of the representations made, not the results of a consultation process by the council. They should not be treated as a consultation or an opportunity to make changes or answer representations. NB: under the 2012 Regulations there is no longer any requirement to give notice by local advertisement.

You should ensure you are in legal compliance with the SCI, the Habitats Directive and the Strategic Environmental Assessment Directive in any additional work. Any formal publication of additional or changed matters would need to allow at least a six-week period for representations to be made.

There are different approaches that could be taken to changes. You should be satisfied that you remain fully compliant with the legal requirements if any changes are made (and any consequential effects on the DPD as a whole).

Apart from notification of the examination, this tool does not deal with the legal requirements that need to be followed after submission.

Stage five: Submission
